We charge £1.80 per hour for the funded hours (95 hours per month funded), monthly total is £171. What does this cover?

Funded hours only cover care and do not cover the things that are consumed or used by the children during their time with us. This also covers things like trips, annual parties and experiences the children access during their time with us (this does not cover extra curriculum classes). Whilst older children do not use nappies, they have more opportunities for trips and community experiences than the younger children, so we have balanced this out across the board.
